Attached within this proposal, MRC Recycling has included a copy of their fee sheet for negative value items. In addition to these items, MRC Recycling will charge a \$200.00 pickup fee per dispatch/truck. Each MRC truck is capable of hauling up to 12 pallets of material. MRC Recycling understands the first pickup may be larger in size, and is willing to dispatch 1 additional truck if needed to collect the initial round of materials.

We thank you for this opportunity to bid on your project. If chosen, we feel that our certifications, experience, and true white glove service will exceed expectations.

Respectfully,
