Example Training Schedules

- The week before students arrive
- During the Spring semester: April or May
- 2-3 weeks after the first day of school

- All elementary buildings are trained at the same date/time
- Training sessions are broken down by K-2, 3-5, 6-12

Implementation Process

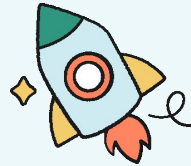

Account Setup

We will need a list of every user who should have access to the platform, broken down by building. If you purchase a site license, there can be an unlimited # of users. All users will be added on any date you prefer.

Implementation

We like to set up an implementation call with major stakeholders who will form the SEL leadership team (principals, top users or advocates, MTSS specialists, etc.). During this call we can discuss training options, resources, and answer any questions leadership has.

Training

Training will occur on-demand or live via Zoom. Live trainings can be recorded and sent out afterwards.

Check Ins

Midway through the school year, we will meet with the leadership team to discuss feedback, share data around implementation, and address any challenges.

Year 2

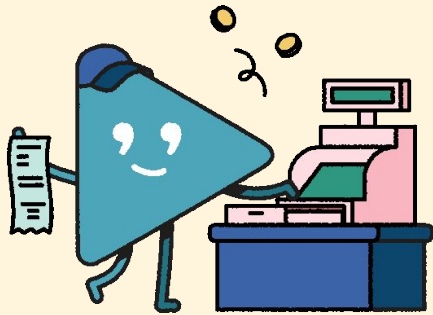

Towards the end of the school year, we can meet again as needed to discuss what is needed for Year 2 and beyond!
