

Middle School Social Studies Bid Sheet

Vendor	mdlogix	EduProject ELL, LLC
Date Received	July 15, 2021 8:41 am	July 15, 2021 11:39 am
Cost	\$42,500 (\$5 per student)	\$28,000 (\$25,500 ongoing) (\$3 per student)
Additional Services Offered	ability to expand out for medicaid billing, can assist with writing SAMSHA grants, tele-health capability within the system.	premium support (10% of total bill): toll-free #, text msg, expedited responses, after-hours support
Notes	Originated from medical field, used by universities and state government departments, 'off-the shelf' product with minimal customization or can ask for engineering of customization. extensive dashboard for live updates on individual user workflows, very clinical in language-functionaility-workflows, electronic signature capturing. Unable to flex from a clinical structure/mindset to an educational mindset. References were state departments of education	District is currently purchasing and working implement Project EL, 504, and Title with the district. Student schedules, attendance, and test scores already available in the system. Educational structure and mindset - clearly developed and agile enough for school use. Refereces were school districts in Florida and Texas as they have not moved into the Missouri/Kansas area as of yet.
Functionality	workflows required person to switch and 'find' next step to assign student to counselor, individual record-keeping without ability to do group/multiple entries at one time (had to move in/out of each student's record), tele-health was extremely easy to access and would save in the system automatically,	nightly integration w/SISK12, separate counselor and social worker 'form' for entering and tracking interactions with students and parents, can integrate district forms into the platform, generate custom forms and workflows, granular level of security and access to student data(confidentiality), can manage roster of small groups and enter indivual comments for each group interaction, can track referrals made to outside community resources, robust data reporting. This program allows us to also have a tool for interventionists to utilize in creating and tracking Tier 2 & 3 behavior plans, as well as, physical restratint.
Total	\$42,500	\$28,000 (\$25,500 ongoing)
