# MITIGATION STRATEGY PLAN

## Masks

Jackson County Executive Frank White issued a new public health order, effective at 12:01 a.m. Monday, August 9. What the health order requires...

- An individual in an indoor place of public accommodation must properly wear a face covering or mask. These spaces include, but are not limited to, grocery and retail stores, special events, and public transit, but do not include private dwellings or private transportation vehicles.
- The only exceptions to this requirement are:
  - Minors below the age of 5; and
  - Persons who have disabilities where face coverings or masks constitute a substantial impairment to their health and well-being based upon medical, behavioral or legal direction; and
  - Persons in a restaurant or tavern actively consuming food or drink; and
  - Persons obtaining a service involving the nose or face when temporary removal of the face covering or mask is necessary to perform the service; and
  - Persons who are alone in a separate room or office

## Physical Distancing

Individuals are encouraged to maintain physical distancing when possible.

**#STRONGER  
TOGETHER**

# MITIG STRATEGY P

## **Handwashing and Respiratory Etiquette**

Frequent and adequate handwashing is recommended. Handwashing stations and handsanitizer are available.

The shaking of hands is discouraged.

Individuals should cover their mouth and nose when coughing or sneezing followed by the washing of hands.

## **Cleaning and Maintaining Healthy Facilities**

Disinfecting and cleaning supplies are available to staff and students. Custodians will routinely disinfect and clean surfaces.

Ventilation fan systems will be set to run continuously. Filters will be changed as recommended by the manufacturer. The amount of outside air will be increased and based on outside air quality.

## **Contact Tracing**

It is critical for students, staff and visitors to the district to stay home when they have symptoms of COVID-19, even if they are someone who suffers from regular seasonal allergies. Individuals who are sick should stay home, separate themselves from others, monitor their health, and follow directions from local health-care providers. Individuals who need medical care should call their medical provider to report their illness prior to seeking care at a clinic, physician's office, or hospital. Staff and students exhibiting flu-like symptoms are asked to stay home and contact the Jackson County Health Department or Kansas City Health Department (the department you call is determined by your home address) for further instructions.

According to the Centers of Disease Control and Prevention (CDC), "close contact is defined as any individual who was within 3 feet in the classroom and 6 feet in the cafeteria of an infected person for at least 15 minutes starting from two (2) days before illness onset (or, for asymptomatic patients, two (2) days prior to positive specimen collection) until the time the patient is isolated." This definition has been adopted by the Jackson County and Kansas City Health Departments.

The health services department will conduct contact tracing when necessary and work with the Jackson County and Kansas City Health Department to determine if quarantining is necessary.

## **Diagnosis and Screening**

Health Services staff is available to address any individual who is symptomatic for COVID-19.

All individuals are required to stay home if symptomatic for COVID-19.

## **Vaccination Efforts**

Vaccination Clinics have been offered to staff and students.

Staff members and families are made aware of local vaccination clinics provided by the Jackson County Health Department, Truman Medical Center and Children's Mercy via email.

# ATION PLAN (CON'T)

## Accommodations for Students with Disabilities

Students with disabilities will be provided appropriate accommodations based on their individual needs. Accommodations as necessary or mandated by an Individual Education Plan (IEP).

## Continuity of Services

We have submitted an AMI plan for the district which has been approved. We will follow the same guidelines for the AMI plan over an extended period if necessary. In general, students in grades 2-12 have a device to access the curriculum. We have a plan to distribute wi-fi hotspots for families that do not have internet access. Teachers will use Goog-

le Classroom as the main platform to instruct students, assign work and collect completed assignments. We will send packets of work home for students in PK-2. We found that these grades were not able to learn well through the computer interface this past year.

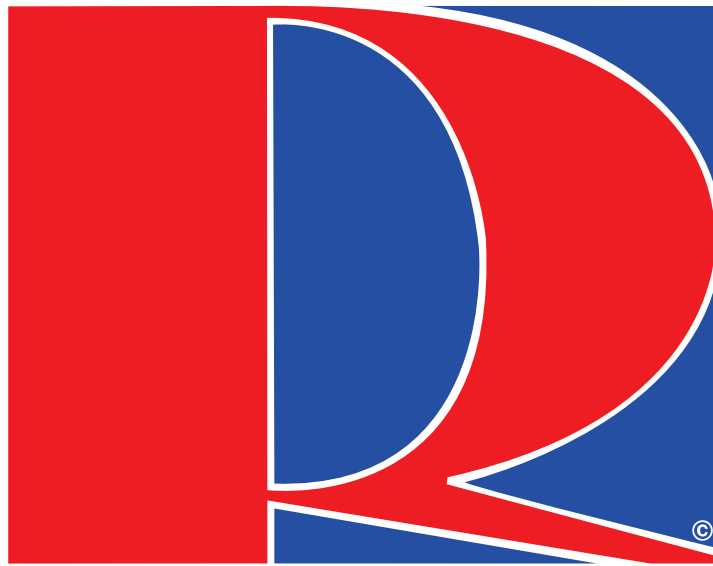

## Periodic Revision

Periodic surveys will be sent to stakeholders to gather feedback on the Safe Return to In-Person Instruction and Continuity of Services Plan (SRCSP). This will occur no less than every six months. Based on this feedback the SRCSP will be revised.

## Understandable Language

The SRCSP will be available in English and Spanish. If another translation is needed, please contact Dr. Lynn Tarvin at [lynn.tarvin@raytownschools.org](mailto:lynn.tarvin@raytownschools.org).
