

# 2021-2022 CURRICULUM AND INSTRUCTION GOALS IN RAYTOWN, STAFF WILL:

Use instructional practices in math that focus on conceptual understanding and fluency in order to improve student mathematical reasoning.

Collaborate in Data Review Teams (DRT) to improve instructional practices and student learning.

Understand student differences through Cultural Competency in order to better meet the diverse needs of all students.

Include non-fiction reading and argumentative writing opportunities in all classes in order to improve students' reading and writing.

Provide numerous high-level questions to students in formats that encourage active participation in order to improve students' depth of thinking in all classes.
