

Raytown C-2 School District 2024-25 Enrollment & Utilization Statistics

The following tables provide statistics for current schools and boundaries under evaluation. This data is derived from the district's 2024-25 Student Database as of January 30, 2025, and will help inform stakeholders about potential impacts of redistricting adjustments.

Glossary of Terms

Capacity -the number of students that an individual school has the physical capacity to enroll and can be reasonably accommodated in a facility.

Utilization - Utilization is the total enrollment divided by the capacity, described as a percentage.

Utilization Color Key
Within $\pm 10\%$ of Study Area Average
Between $\pm 10\text{-}15\%$ from Study Area Average
Greater than $\pm 15\%$ from Study Area Average

Live & Attend-In Students - Students residing inside of a school attendance boundary and attending that zoned school.

Live Out, Attend-In Students - Students residing inside of a school attendance boundary, but attending a school outside of the attendance zone they live in.

Out of District students - Students that live outside of the Raytown School District's boundary.

Unmatched students - Students whose address were unable to be located via Geographic Information Systems (GIS).

Feeder Pattern - This refers to the sequential progression of students as they advance through the school system. Specifically, it describes how many students living within the attendance boundary of a lower grade cohort (e.g., an elementary school) transition to a secondary school (e.g., a middle school). The feeder pattern is expressed as a percentage of students who reside within the attendance boundary and continue to the next level of schooling.

Current Enrollment Statistics

The table below provides an overview of the current capacity, K-12 student enrollment, utilization, and live-attend data for each school within the district as of April 10, 2024.

School	Grades Served	2024-25 Capacity	KG	01	02	03	04	05	06	07	08	09	10	11	12	2024-25 Total Headcount K-12 Grade Enrollment	2024-25 Total K-12 Enrollment Utilization

Feeder Patterns

The following tables reflect the elementary to middle and middle to high school feeder patterns. The tables show the percent of students that progress from each elementary to their corresponding zoned middle schools, as well as the percent of students that progress from each middle school to their corresponding high school.

	ES to MS Splits	MS to HS Splits
Current	0	2

*The table to the left highlights the total splits that exist in the boundary configuration. A split occurs when the progression of students from one ES/MS feeds into 2 or more MS/HS.

2024-25 ES Zone	2024-25 MS Zone	ES Attendance

Raytown South MS	Raytown South HS	100%

Live Attend Matrix

In order to gain an understanding of where kids live versus where they attend, the following matrix were created. The schools of attendance are listed on the left while the school zones where students live are listed on the top line. The numbers highlighted in green are counts of students who attend the assigned schools for the zones where they live.

		Where K-5 Students Live 2024-25												
		Blue Ridge ES	Eastwood Hills ES	Fleetridge ES	Laurel Hills ES	Little Blue ES	Norfleet ES	Robinson ES	Southwood ES	Spring Valley ES	Westridge ES	Out of District	Unmatched	Live Out, Attend In

Live In, Attend Out		179	13	16	12	25	21	16	10	27	20	19		

Live in and attend out totals per school. Total is shown at the left in the blue-colored cell.

Green-colored numbers represent number of students who live in the zone and attend their zoned school. All other numbers represent students who attend school outside of the zone that they live in.

Live out and attend in totals per school. Total is shown at the top in the orange-colored cell.
