Date Received	2/9/21 @ 3:03 pm	2/11/21 @ 2:01 pm	2/11/21 @ 5:17 pm	2/11/21 @ 5:35 pm	2/12/21 @ 9:45 am	2/12/21 @9:55 am	2/15/21 @ 4:48 pm RECEIVED PAST DEADLINE
Cost	\$35 per student	\$26.47 per student plus additional manipulative costs	\$ 48.00 per student includes print and digital materials: Total: \$737,399.05	\$2500 per school site	avg \$21.36 per student/ \$596 per grade level	\$18.00 per student for digital plus additional consumables cost	\$25 per student plus manipulatives/ \$75 per teacher set
Additional Services Offered			Digital and Print - 6years; Professional Learning; Waggle computer adaptive program K-6		Digital and Print - 6 years; Professional Learning ; Aleks (3-5) computer adaptive program ; Manipulative Kits; Work Station Materials		
Notes	Could be valuable as a supplemental resource but does not seem robust enough for a full mathematics program. Strong online features.		Strong data component with K-5 Waggle; Diagnostic assesemnt for beginning, middle, and end of year; Alignment with STAR and NWEA , Module booklets for intermediate grades but several per student for primary	Strong digital lessons and could be a valuable for digital practice. More robust than Snappet but still not a robust enough curriculum to stand alone for a resource adoption.	Ignite Curiosities; STEM Career kids part of learning process; student consumable books, line item manipulative purchases; Focus: content, language and SEL target for each lesson; Coherence: lesson progression; Rigor- conceptual understanding, procedural fluency, and application; Number Routines (fluency development); digital or print exit tickets; data collection system; Alignment with NWEA, versatile building, district data collection	Solid mathematics & materials but not organized in an easy way for teachers. Committee felt this product would require lots of extra planning and prep work which is scarce since elementary teachers teach multiple subjects.	This resource will be released in the Summer. The textbook selection committee felt it was still too underdeveloped to meet our needs. It did not score as high as the competition in the review process.
Total			\$737,399.05		\$587,514.00
